

SSM1110H Sustainability Management Internship

Course Description:

The course is designed to provide experiential learning. Every student will work with a host organization on a project related to sustainability management for a period of time ranging from two to four months. The project will be identified jointly by the host organization, the MScSM program office, the Graduate Faculty responsible for the course, and the student working on that project. Every student will work under the guidance of a supervisor from the host organization and a faculty supervisor. At the end of the course, every student will submit a report for the host organization, the MScSM program office, and the faculty supervisor.
