Community

ROLE AND RESPONSIBILITIES

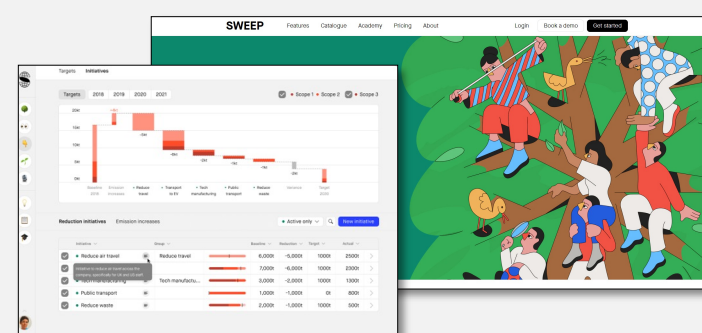

- Manage and lead carbon footprint pilot project
- Plan and develop program dashboards and reports
- Develop demos, presentations, and reports for project rollouts
- Own and lead user interface and experience improvements for all Partner and Executive facing tools and digital products
- Support Amplify Impact project team on content reviews, presentations, auditing of tools, and other tasks within the project

KEY TAKEAWAYS

- We are moving towards a more sustainable world, and businesses just need a guiding hand.
- A program like HP Amplify Impact is a blueprint for building sustainable business models and integrating sustainability into existing businesses
- Empowerment is highly enabling
- Collaboration and adaptability are essential
- When in doubt, ask

ACCOMPLISHMENTS

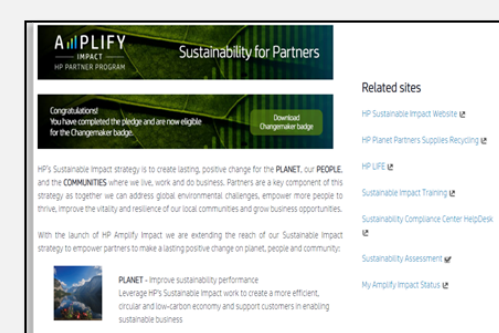

Led the **carbon footprint pilot program** with 5 global partners and ensured they successfully completed it within the time frame

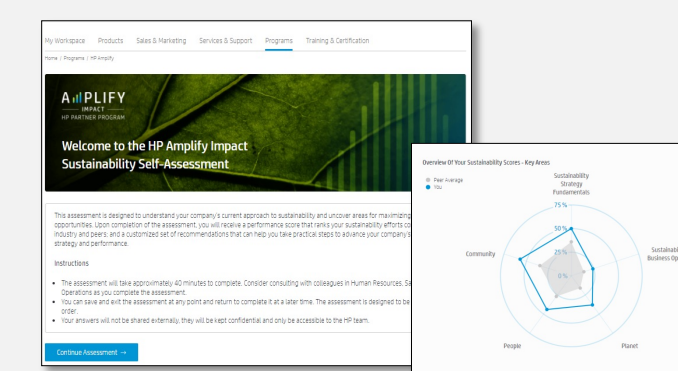

Planned and developed **dashboards and reports** for the team that will be used throughout the organization

Audited the Partner Portal in **7 languages** and led the project for **content and user experience improvements**

Conducted a full **user experience review** of the Sustainability Self-Assessment tool to improve the tool for 2022

Developed and submitted an entry on behalf of the program to a **prestigious Awards** category
