

CLASS 2016

Research Paper Title
Towards the Development of Sustainable Tourism: A Case Study of Chiang Mai
An Effective Management Framework for Triclosan in Canadian Consumer Personal Care Products
The role of community groups in the implementation of sustainable food plans in Calgary and Toronto
The Link Between Competitive Advantage and Corporate Impact Venturing
Developing Pro-environment Behaviour Intervention Best Practices: A Narrative Review
The Use of Environmental Research on Capitol Hill
From Agriculture Waste to Sustainable Biofuel? A Case Study of Punjab, India
Health Costs of Acute Pesticide Exposure to Children Working on the Cocoa Crop in the Ivory Coast
Determination of optimal growing conditions in geodesic greenhouses to increase food production capacity in northern communities of the Canadian Taiga
Factors Influencing Consumer Response Towards Green Marketing in an Age of Skepticism
Leading Sustainable Organizations: The Effects of Sustainability and Authentic Behaviour toward the Environment
Electricity Price Volatility Modelling for Risk Reduction in Ontario's Electricity Market
The Potential Advantages and Drawbacks of an on-grid Photovoltaic Solar Power Project in Colombia
First and Second Mover Advantage in Sustainability Management: A Game Theoretical Analysis
A Review of Green Bond Literature
Sustainable Arctic Cruise Tourism Development: Nunavut and the <i>Crystal Serenity</i>
The True Cost of Diesel: Improving HRES Planning in Remote Off-Grid Communities
The Sustainability Values: Linking Managerial Values and Corporate Sustainability Performance
Climate Change Adaptation Strategies: Fisheries, Food Security, and Communication in the Republic of Fiji
Factors Influencing the Ontario Source Water Protection Plan Implementation: Case Study Halton-Hamilton and Credit Valley, Toronto Region and Central Lake Ontario Source Protection Regions
Potential Carbon Offsets Supply from Nitrous Oxide Emission Protocol (NERP) Adoption by Corn Farmers in Ontario
An analysis of the relationship between ESG and the financial performance of oil and gas sector firms during the 2014 oil price shock
Decentralized energy for tomorrow
Social License to Operate as the Limiting Barrier to Agricultural Growth: Lessons from Neonicotinoids in Ontario
Circular Economy-based Offsets in Ontario's Cap and Trade Program
Toronto's TowerWise Retrofit Program: An Assessment of its Success and Scalability
The Development of an Aquaculture Assessment Framework to Improve Food Security in Developing Asia and Africa
Sustainability Practices in the Luxury Hospitality Industry: Exploring Effects of Customers' Perspectives on Sustainable Practices of Luxury Hospitality

CLASS 2017

Research Paper Title
Assessment of niche-innovations in green building sector using Multi-level perspective (MLP) in Northeastern Thailand
The Green Leaders Program
Peel Region's Wast App: The Relationship Between Terms Searched and Waste Contamination in Peel
The Smart City Paradox
Examining the Effectiveness of a LoyaltyOne Foundation to Create Shared Value
Karachi: The impediments of integrating solar energy technologies through residential buildings
Neoliberal Toronto and the George Street Revitalization Project Plan
Correlation Between Social Sustainability and Perception Within the Apparel Industry
Program and Discussion for Evaluating Net Negative Carbon Capture and Sequestration Technologies for Global Deployment
Circular Economy: Closing the Loop in the Apparel Industry
A Review of Six Emissions Trading Systems in the World and its Implication for the Cap-and-Trade System in Ontario
Challenges for sustainable waste disposal in cities of the Global South: A Case Study in Chennai
Use of internal carbon price as a planning tool by Canadian companies
Searching for common ground in the organic versus GMO debate
Intersecting Mobile Money and Savings as an Effective and Scalable Solution for Economic Development and Financial Advancement in Kenya
Motivation for pro-environmental action: Can Expectancy Theory explain the motivation behind conscious consumption?
Purchasing Patterns and Influences for Environmentally Friendly Personal Care Products
Greenwashing in the Cosmetic Industry
How do Canadian Companies Manage Climate Change Risk? An Empirical Analysis
Sustainable Consumption and Indian Youth Population: a qualitative study on buying behaviour of young Indians
Curbing Emissions from the Meat Sector; an Environmental Meat Tax
The Scope and Strategy of Ecolabelling in the Outdoor Apparel Industry
ESG Disclosure of Pharmaceutical Companies Listed on the TSX

CLASS 2018

Research Paper Title
Analyzing Policy Mechanisms Affecting Renewable Energy Systems in Ontario
Influence & Technology: Leveraging Information & Communication Technology (ICT) to Influence Sustainable Behavior in Small and Medium Sized Enterprises (SMEs)
Comparative Analysis of Ecotourism and Sustainable Tourism
The Current State of Sustainability within the Canadian Travel and Tourism Industry
Shifting the Peak: Utilizing a Lighting Nudge to Change Electricity Consumption Behavior
The State of Autonomous and Connected Vehicles in Canada
Low Carbon Energy Development in Thailand – Analysing Implementation Barrier

Waste Management in Multi-Residential Buildings in Toronto: Perspectives from Property Managers
What are the most effective interventions at changing household food waste behaviour and why?
Transforming the 21st Century Classroom into a Sustainable Learning Ground
The relationship between pollution and child mortality: evidence from Mexico City
Exploring the Link Between Board Gender Diversity and Environmental and Social Ratings of Canadian Publicly-traded Firms
The Management of Microplastic in the Great Lakes: A Science and Policy Perspective
Coffee organic waste management and alternative applications: A case study of coffee production in the Galapagos Islands
The Influence of Organizational Behaviour in Motivating Corporate Environmental Sustainability in Quito, Ecuador
Evaluating destination competitiveness and sustainable tourism for Nunavut and the Canadian Arctic in China
What Are the Current E-waste Recycling Challenges, with Respect to Recycling Electronic Products, Faced by Producers and Consumers in China?
Innovative financing mechanisms and models for energy efficiency retrofits in Toronto
Engagement & Commitment with Canadian Aboriginal Communities by Natural Resource Sector
Can the Impacts of Thawing Permafrost on the Alaska Highway Be Mitigated in the Long-Term?
Soil Chemistry changes in relation to varying densities of vegetation on abandoned agricultural land in the highlands of San Cristobal, Galapago
The Influence of Climate Change on the Private Insurance Industry: An Opportunity for Innovation through Strategic Partnership and Big Data
Indoor Radon Gas Exposure: A Comparative Analysis of Radon Control Policy from Health Canada and the US EPA
Rebuilding the urban forest in the context of socioeconomic and demographic issues: An analysis of the City of Mississauga's One Million Trees Program
Sustainability implications of use of Blockchain in Financial Services Industry?
Coffee Processing Wastewater: Impacts and Treatment Methods - Case Study: Hacienda el Cafetal, Procafe S.A, San Cristobal Island, Galapagos
Human Psychology and Climate Change

CLASS 2019

Research Paper Title
An Assessment of the Municipal Materials Management Stream Using the Circularity Index: A Case Study of the City of Mississauga and the City of Iqaluit
Analysis of the Design Process and Identification of Characteristics Influencing the Reuse Potential of Buildings
Utilizing Impact Benefit Agreements for Environmental Protection and Well-being Between Industry Development and Indigenous Communities within Canada
Environmental Sustainability in Sports: A Comparative Analysis of Waste Diversion in North American Professional Sports Venues
How Municipalities are Supporting Urban Agriculture Development & Identifying the Challenges Being Faced
A Comparative Analysis of Urban Green Space Planning and Management Across Urban Areas in Ontario
The Current State of Economic Life in the Black Population in Toronto, Ontario
Road Salt in the Credit River Watershed

Social Norms As Nudges To Encourage Commute Mode Shift
How Retail Investors React to Socially Responsible Mutual Funds: An Experimental Approach to Estimating Relative Fund Flows
SUSTAIN-ABILITY: How Smart Cities Can Leverage AI for Environmental Sustainability
Making Sustainability the New Norm: An Analysis of Social Practice Theory
Perceived Barriers to Sustainability of Scuba Dive Operators in the Galapagos Islands
The Influence of Nudges in Digital Feedback to Reduce Residential Energy Consumption
Is Mindfulness a Tool to Cultivate Sustainable Behaviour?
Sustainable Diets: Examining Environmental Concerns as a Distinct Motivation for Avoiding Meat
Designing a Low Emission Zone for Toronto's Financial District to Reduce Transportation Greenhouse Gas Emissions
Building Healthy, Sustainable Communities: A Scoping Review of Western Diet Impacts on Health Outcomes in Ghana, Africa
Understanding the Relationship Between Corporate Governance and ESG Performance: A Guide to Sustainable Decision-Making in Apparel
Incentivizing Innovation in a Circular Economy
A Review of Green Roof Stormwater Management Potential in Urban Areas with City of Toronto as a case study
Closing the Transit Gap: Exploring the First and Last Mile Problem in a Growing Suburban Neighborhood
Responsible Pension Management: Navigating Real Asset Investments in a Changing Climate
Venture Capital Valuation of Less Mature Clean Technology Firms – An Overview
Gender and Racial Bias in the Workplace: A Comprehensive Review
Waste(d) Potential: Challenges and Opportunities in Incorporating Organics Waste Diversion in Privately Managed Urban Multi-Residential Residences
Conceptualizing, Characterizing and Corporatizing Environmental Justice (EJ): Using Online Retailing as a Case Study for EJ Implementation in the Era of Ever-Increasing Digitalization
Recycling of Textiles from the Apparel Industry, the Feasibility within Canada
Renewable Energy Minigrids as a Tool for Rural Electrification in Developing Countries - Implementation Issues & Possible Solutions
Designing a Motivation-Oriented Educational Environment for Undergraduate Students
The Art of Deposit Return Systems: An Analysis of Key Economic, Political, and Operational Factors
Barriers to Sustainable Procurement of Food in Toronto Restaurants
Precision Agriculture in Taiwan: Barriers and Strategies for Technology Development and Adoption
Sector specific Global Reporting Initiative (GRI) scoring compared to market capitalization, stock price volatility and sustainability news in Oil & Gas, Materials, and Financial Services Sectors

CLASS 2020

Research Paper Title
Examining household disposal practices of medications
Developing a Climate Change Resiliency Strategy for the Tourism Industry in Dubai Through Policy Analysis
Species at Risk and Sustainability: A Case of the Niagara Region
Understanding the Influence of Flight Shame as a Nudge for the Air Transportation Industry and Consumers Through Media Content Analysis
Materiality issues in the launch services sector: In Search of a sector specific sustainability framework

Buying into sustainable menstruation: Investigating the impacts of sustainability information campaign on willingness-to-pay for menstrual cups
Green Advertising Strategies for Consumer-Packaged Goods: Systematic Review and Case Study
Physical Accessibility and the Built Environment: A Case Study Examining the Relationship Between Building Design, Era, Purpose, and Designations at the University of Toronto
Canadian Banks and Sustainable Development
Integration of Refugees that Identify as Queer in Canada
Implications for Being a Parent for People's Attitudes Toward Environmental Issues: Do Parents Care about the Environment More than non-Parents?
Enabling a Sharing City for Economic Resiliency, Sustainability and Social Capital: Discourse Analysis of Toronto's Sharing Economy
Determining which Employee Engagement Practices are Most Valued Relative to Generational Variability
Factors motivating the legal recognition of nature's rights: The case of River Whanganui in New Zealand and lessons for environmental decision-making
Evaluating the State of Environmental Sustainability Disclosure for Canada's largest Alpine Ski Areas
Hydropower Dam Development in the Mekong Region: Building a Sustainable and Equitable Future
How Can Sustainability Apps Influence Responsible Consumption?
Strategies for public education and outreach in urban forestry: A case study in six Southern Ontario cities.
On Thin Ice: Vulnerability and Resilience of Ontario's Urban Ice Fishing Communities
Determining the Impact of Blockchain Technology on Carbon Markets
Sustainability and Small and Medium-sized Enterprises (SMEs): Exploring sustainability-focused Business Network Best Practices for Facilitating Sustainability Adoption among Canadian SMEs
Understanding sustainability and brand gender identity in the apparel industry
Going for Green: An Assessment of Environmental Sustainability at the Olympic Games
Are Social Enterprises an Effective Design for Waste Electrical and Electronic Equipment Management Systems for Sustainable Development in Ontario?
The Missing Piece: Understanding the role the Canadian Airline Sector Plays in Sustainable Development
Compliance with the SASB Environmental Reporting Framework by Canadian Oil and Gas Companies : An analysis of Materiality Reporting
Monkey See, Monkey Do: Institutional Isomorphism and Climate Action Planning in Canadian Universities and Municipalities
The state of waste generation from road running races in Canada
Considerations of the Carbon Footprint of imported and domestic lettuce for Canadian Retailers
Operation Sweep the Creek. An assessment of industrial microplastic contamination in an urbanized watershed in Ontario, Canada
The State in Which Gender Impacts are Considered Among Environmental Impact Assessments
Building Community Resilience by Connecting Communities and Institutions
The Appropriateness of Extended Producer Responsibility as a Policy Option to Manage Compostable Plastics in Ontario
Exploring the Application of Behavioural Strategies to Improve Multi-Residential's Waste Diversion

CLASS 2021

Research Paper Title

Are Canada's income tax incentives aligned with its gender equity goals? An evaluation of income tax policies on the women in the labour force
A reframing of sustainability and 'sustainable' development: Indigeneity, gender, and the Sustainable Development Goals
Projected effects of climate change on Lake Eries biological processes
A tradition of environmental racism: A case analysis of Lincolnville in relation to white supremacy, racial capitalism and settler colonialism
The Housing Affordability Crisis and Young Adults: An intersectional study in Toronto
Controversial ESG events and share price movement: A short-term event study for the composite materials sector
Understanding the Barriers: Women of colour in the workplace in Toronto
The use of multimedia aids by elementary school teachers in the effective communication of environmental education: Case Study Ontario
The Gendered Impacts of COVID-19: Evidence, causes, and rectifying policies
Impacts of climate change and strategies on small holder coffee plantations in Latin America
Consumer behaviour towards plant-based diets: A systematic review and case study
Redirecting the Loop: The ESG investing versus performance paradox
Franchise Business: An impediment to decent work in Canada?
Water Security: A review of water infrastructure and sources in the Canadian north with a focus on Nunavut
Interactions Between the Proposed Energy Mix Scenarios and Non-energy Sustainable Development goals (SDGs): A sub-Saharan African perspective
The value of social resiliency during time of crisis: A case study on COVID-19 in the Jane and Finch community in Toronto
Best Management Practices for Future Wind Developments in Canada's Grasslands
Helping investors and oil and gas companies make informed and sustainable decisions
Understanding maritime shipping companies' engagement with efforts to decarbonize
Quality of the Mining Sector's Sustainability Disclosure: A regional scoring and comparison of sustainability reports from Canada, South Africa and Europe
An analysis of post-pandemic corporate sustainability strategy and communications in the Canadian financial sector
Role of AI in HR: Augmented language platforms in neutralizing gendered recruitment
Approaches to green finance: A comparative study of capital mobilization strategies employed by countries for decarbonization and environmentally sustainable development
Post Life legacy for Sustainability
The stresses of climate change on social and cultural heritage in the state of Hawaii
A Review of how community gardens interact with the United Nations' Sustainable Development Goals 1, 2, 3, and 11 and promote sustainability in North American cities

CLASS 2022

Research Paper Title
Quality of Urban Green Space in Toronto, Comparing Communities of Low and High Socioeconomic Status: A Question of Environmental Justice
Investigating the impacts of sustainability-focused experiential learning courses on current & former undergraduate students

An Analysis of Six Apparel Company's Product Disclosures versus their Sustainability Reporting
Food for Thought: A Critique on Restaurants and their connection to Food Waste and Sustainability
Framing Climate Change Within The Media
Blockchain, Smart Contracts for Smart & Sustainable Buildings
Tackling healthcare waste in patient rooms: improving waste reduction, diversion, sorting, and recycling
Plastic Packaging Reduction Index (PPRI): Evaluating Fast-Moving Consumer Goods Companies
Stressed and Well-Dressed: The Relationship Between Climate Worry and Fast Fashion Purchasing Behaviour in Canadian Young Adults
Cycling and Staying on Track: An Evaluation Toronto's Cycling Initiatives through a Social Practice Theory Framework
Transforming Good: A Change Management in Food Production
Remote Sensing-Based Land Cover Recovery Assessment at Post-Closure Mine Sites in Support of Sustainable Resource Development in Canada
Depicting sustainability in the cosmetics industry: a media content analysis of leading news sources
Let's Grow Old Together: A Study on Creating Intentional Communities to Maximize the Social Resilience of Elderly Torontonians
Resilience in social-ecological systems: An evaluation of a framework to assess the resilience of farming systems, using the apple farming system of South Georgian Bay, Ontario as a case study
Potato Suitability Dynamics in Future Climate Scenarios for Ontario, Canada
A Frame Analysis of Singapore's Population Policies
Braiding Indigenous Environmental Knowledge into the Ontario Wetland Evaluation System (OWES)
The building blocks of successful clean energy policies: An econometric analysis of socioeconomic factors that impact regulatory and policy support for clean energy
A Comparative Analysis of Lake Ontario, Canada and Lake Garda, Italy: Effects of Microplastic Pollution and Policy Analysis of Each Region
To What Extent is SDG5 Gender Equality Integrated into the Voluntary Carbon Market?
Cost-Benefit Analysis for the conversion to a low-emission construction site: a sustainability approach
Understanding the Approaches Taken by Southern Ontario Private Ski Clubs to Address Sustainability and Climate Change
The Current State and Evolution of Climate Change Disclosure in the Canadian Oil and Gas Sector
Harming While it Heals: Examining the Current State of Sustainability Efforts in Hospital Operating Rooms in the GTA and Presenting Benchmarking Tools to Make Progress
Comparing ESG frameworks to ascertain inclusion of spatial, temporal, and cumulative aspects and their implementation in disclosures of the mining sector
Tackling the Climate Catastrophe Using New Age Technology: Software-as-a-Service
Framing Effect or Framing Affect? Effectiveness of Framing Interventions on Environmental Attitudes and Donation Behaviour
Analysis of the Factors that Influence Consumers' E-waste Recycling Behaviour: Review and Case Study
Transformational Geothermal Energy Policy in Canada
After Sustainability: The Necessity of Virtuous Citizens
