

# Beyond the Balance Sheets: Quantifying Social Impact in the Canadian Real Estate Industry to Improve Sustainability Performance and ESG Reporting Practice

By: Mena Uchendu-Wogu | Supervisor: Professor Ellen Berrey

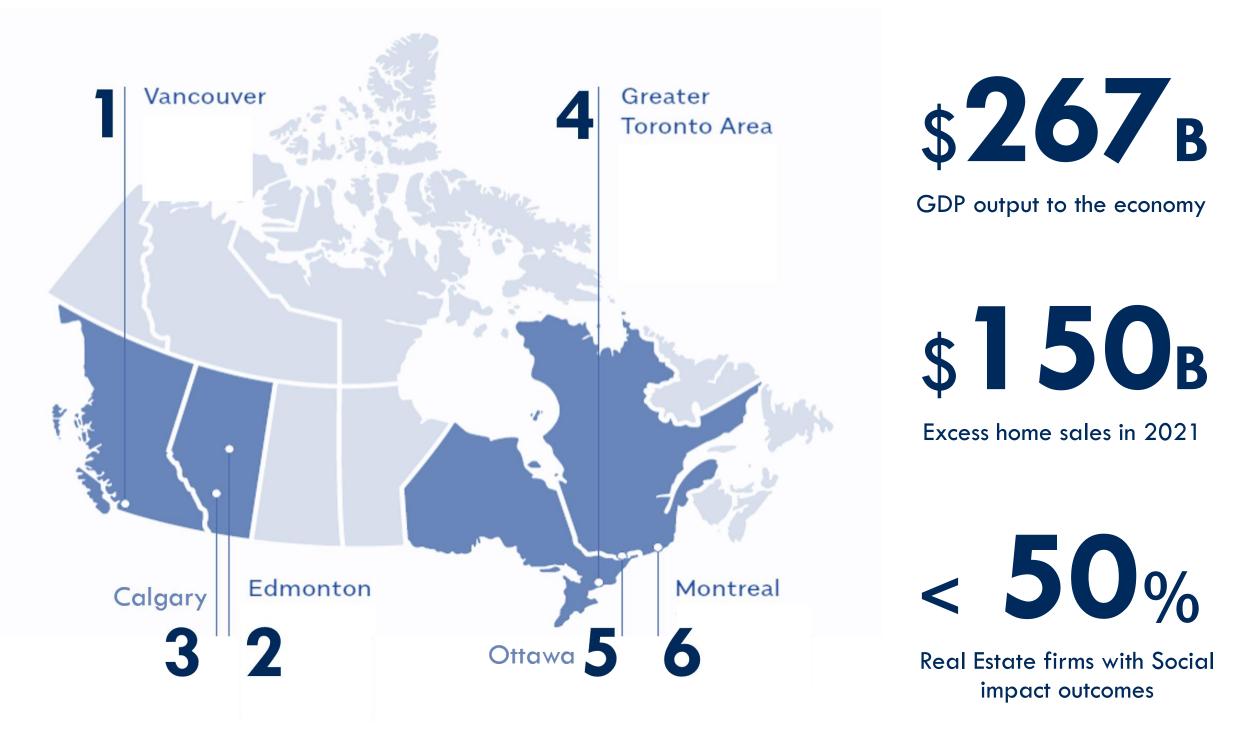

SSM1101Y Research Paper Course - Poster

#### Institute for Management & Innovation UNIVERSITY OF TORONTO MISSISSAUGA

# **Background Analysis**

- The Canadian real estate sector is a significant driver of the national economy
- Real estate practices have far-reaching implications for urban development, social welfare, and community wellbeing across major Canadian markets, such as Toronto, Vancouver, Montreal, Calgary, and Edmonton.

- Current state of social impact assessment: Fragmented landscape focusing primarily on basic metrics such as volunteer hours and charitable donations.
- This research study aimed to address the gap by generating recommendations for an adaptable social impact framework that captures the complex and nuanced effects of real estate practices on diverse stakeholder groups, including Indigenous communities, tenants, employees, suppliers, investors, regulators, veterans, and civil society.

# Research Question

What standardized social impact framework should Canadian real estate companies use to measure their impact on their stakeholders and disclose their social sustainability performance in ESG reports?

mena.wogu@mail.utoronto.ca

#### Social Value Framework

Guiding principles: The social value framework should be based on:

**Tenants** 

Indigenous

Strategic Alignment			
Employees	Suppliers		

Stakeholders		Communities	TOTIGITIS	Linpidyce	Jopphers
	1.	Partnerships	1. Quality of life	1. Inclusion	1. Supply Chain
Social Value	2	Cultural initiatives	2. Community	2. Well-being	Sustainability
Indicators			engagement	3. Professional	2. Diverse Suppliers
	3.	Mentorship	3. Social services	developmen	t 3. Local economic growth
Diverse Stakeholders		Investors	Regulators	Veterans	Civil Society
			4 ACC	1	1
	1.	Impact investing	1. Affordable	1. Employmen	t 1. Community resilience

	Diverse Stakeholders	Investors	Regulators	Veterans	Civil Society
Social Value Indicators	1. Impact investing	<ol> <li>Affordable housing</li> </ol>	<ol> <li>Employment</li> <li>Housing supply</li> </ol>	<ol> <li>Community resilie</li> <li>Cohesion</li> </ol>	
	Social Value Indicators	2 Pick accossment	<ul><li>2. Green buildings</li><li>3. Equity &amp; justice</li></ul>	J	<ul><li>3. Health support</li><li>4. Green spaces</li></ul>

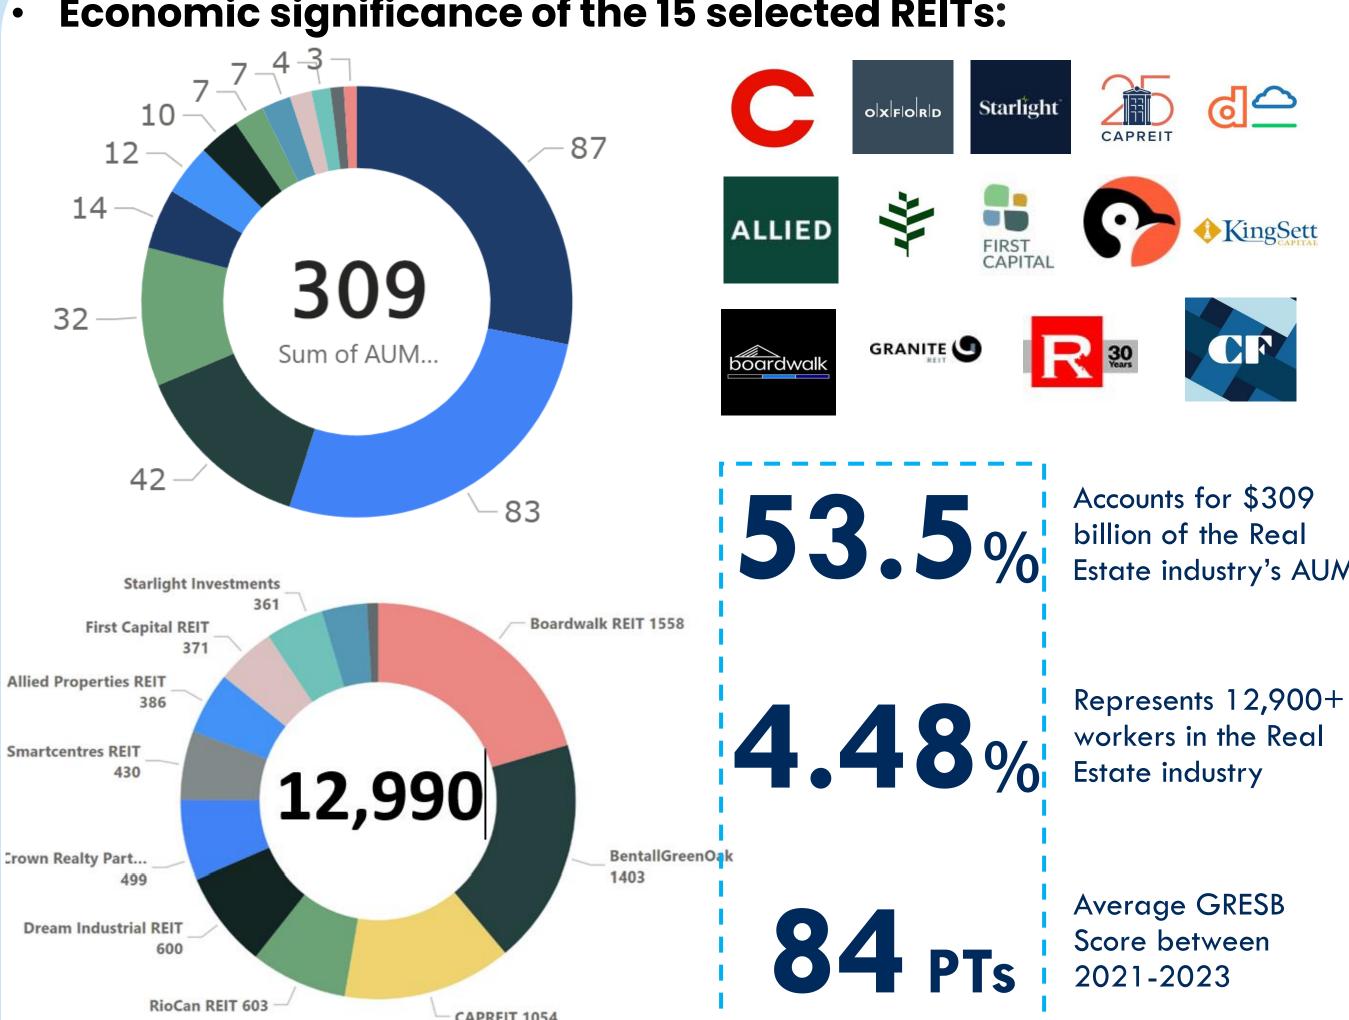

- Implementation guidance:
  - Align framework with investment thesis & stakeholder priorities.
  - Actively engage stakeholders to identify material issues.
  - Integrate social value considerations into operations & decisions.
  - Regularly collect, analyze & report on social performance data

# Research Design & Methodology

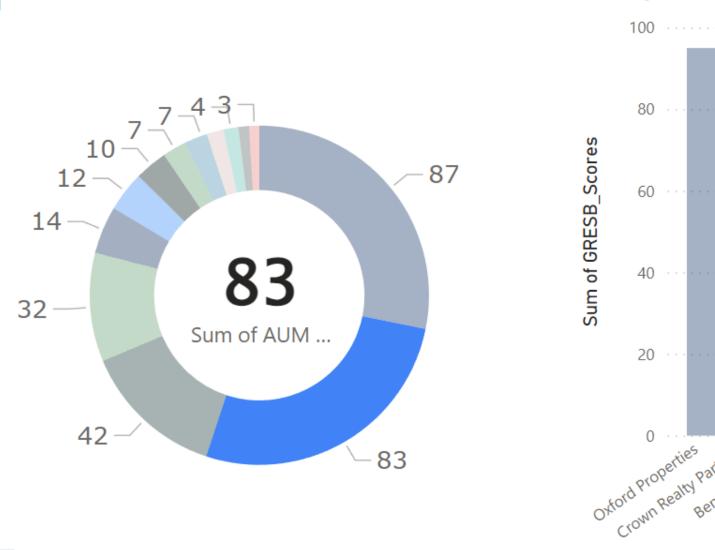

- Conducted a mixed-method study, synthesizing quantitative ESG report data and qualitative insights from interviews based on:
- Presence in 6 major Canadian markets
  - Diversified portfolios across retail, residential, and industrial assets
- **REITs**
- High Global Real Estate Sustainability Benchmark (GRESB) scores
- Sufficient disclosure in ESG reports
- Conducted 6 semi-structured interviews/chats with middle management sustainability practitioners from real estate firms.
- Integrated quantitative benchmarking with qualitative insights to generate social value framework recommendations.

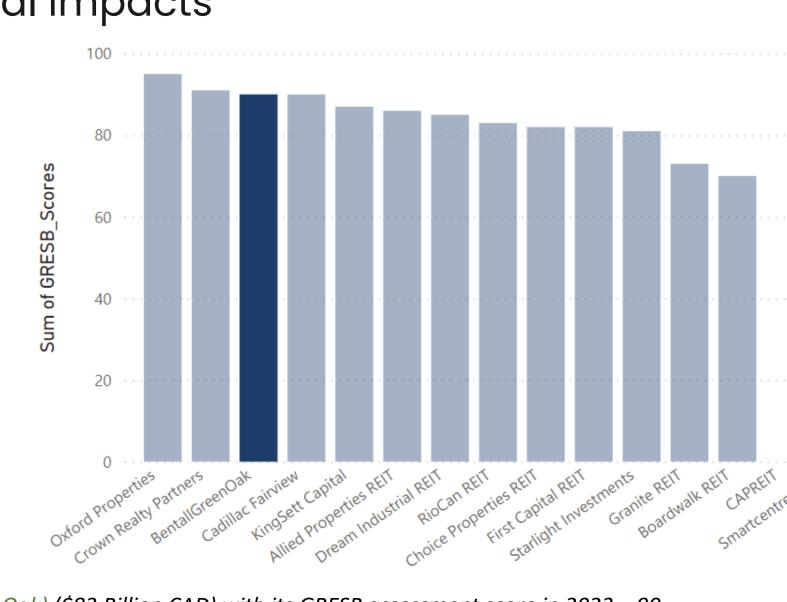

# **Key Research Findings**

Economic significance of the 15 selected REITs:

Correlation between AUM and GRESB scores: Higher AUM REITs have better GRESB scores and indicates more resources to measure & disclose social impacts

The AUM of BGO (BentallGreenOak) (\$83 Billion CAD) with its GRESB assessment score in 2023 = 90
