

Procedural suggestions for Tutorial #6: Writing About Quantitative Data

Some information:

My office: Rm. 3256

Overview:

- *Provide some basic information about writing methods/results/discussions*
- *Have students work on a small group exercise*
- *Answer questions about the upcoming assignment (assignment 2)*

Procedural suggestions for Tutorial #4:

1. **Welcome**, sign-in reminder, hand out name cards.
2. **Go through slides** (10 to 20 minutes).
3. Hand out **worksheet** Have students work in small groups to address each question (15 minutes).
4. Go through the questions; you can also point out some other noteworthy parts as you see fit- see worksheet notes. (10 minutes)
5. Reserve a few minutes for questions about assignment 3.
