

## NATURAL HAZARDS: RISK & VULNERABILITY

### INDIVIDUAL CASE STUDY

The major project for this term will be a multi-part Case Study in which you will investigate some aspect of a specific natural hazard or catastrophic event. The Case Study assignment **as a whole** is worth **40%** of the course mark, with the following components:

Individual Case Study Assignment			
Item	Weight	Due Date	Returned Graded (tentative)
Case Study (as a whole)	40%		
• Case Study Proposal	(5%)	January 27, 2017	February 6, 2017
• Country Risk Profile	(5%)	February 10, 2017	February 20, 2017
• Annotated Bibliography	(5%)	March 3, 2017	March 13, 2017
• Map Project (Google Earth)	(5%)	March 10, 2017	March 20, 2017
• Term Paper	(20%)	March 31, 2017	TBD

Each of the components of the Case Study Assignment will be posted as individual assignments on our Blackboard site. All of the components will help you build to your final product, the Term Paper.
